

ADOPT ME!

My name is **QUINN**, recently my human companion of 9 years was unable to continue caring for me because she no longer could care for herself & is in a memory care unit. I miss her very much as we lived together for 9 years & now I need to find a new human companion.

I'm a 9 yr. old Border Collie, I must say, with beautiful coloring and a sweet disposition. I'm looking for a mature couple or single who wants a devoted companion, can take walks with me, love me, feed me delicious food, although I do need to lose a few pounds. Don't necessarily like being around other animals & prefer a calm and structured environment with someone who understands the border collie personality and temperament. I'm very healthy, up to date on all vaccinations & yes, I'm a neutered male. Temporarily, I'm being cared for in a boarding program but it's not the same as being home. If interested, contact below for more information.

Serious inquiries only
